Ramik Rodenticide Bait Products

Diphacinone, an extremely effective indandione class anticoagulant rodenticide is contained in all Ramik bait formulations. Ramik Green is one of a kind, "ultimate all-weather rodenticide for controlling rats and mice indoors and outdoors." The Ramik Green bait system uses food processing technology to produce an unusually palatable and highly-attractive bait that retains its freshness, sweetness and effectiveness in a long-lasting nugget form. The locked-in freshness and fish flavor gives Ramik Green the taste and high protein appeal that rodents can't resist, even under the most difficult weather and baiting conditions.

Two sizes of these all-weather bait nuggets are manufactured for a wide variety of uses against rodent pests:

Large size (1/2") bait nuggets available in 4 oz bait packs and in 1 lb bags.

Small size (3/16") bait nuggets are available in 43 g bait packs and in bulk containers.

Ramik Green comes in package sizes suitable for any use from the occasional mouse in the house, to rodent infestations occasionally encountered in livestock and poultry production.

This product listing is intended only as a guide in providing general information associated with the use of this product. Always read and follow the label instructions on the package before using.

Ramik® Green (Rat & Mouse 1/2" Large Bait Nuggets)

All-weather bait kills rats and mice indoors and outdoors

- Superior bait so effective, it's patented
- Big 4 oz bait pack perfect against rats

Item No. **Package Size**
116305 60 x 4 oz bucket

Ramik® Green (Rat & Mouse ½" Large Bait Nuggets)

Ready-to-use bait packs

- Handy single-pack dispensing carton
- Highly effective
- 4 oz bait packs
- Great 4-color retail display

Item No. 116351 **Package Size** 60 x 4 oz display

Bulk carton

- 4 oz bait packs
- Economical and practical

Item No. 116307 **Package Size** 160 x 4 oz carton

- Highly effective and economical
- 1 lb bags
- Bulk pack carton
- Great for refilling item #116363 display

Item No. 116330 **Package Size** 48 x 1 lb carton

Ramik® Fact:

All the bait ingredients in Ramik Green are cooked under pressure, gelatinizing the starch bonds that keep Ramik Green bait nuggets from absorbing moisture.

Ramik® Green
(Rat & Mouse 1/2" Large Bait Nuggets)

- All-weather bait kills rats and mice
- Use indoors and outdoors
- Best value per pound for positive rodent control
- Green 20 gallon plastic container
- 1 lb bags

Item No. 116363 **Package Size** 76 x 1 lb display

Ramik® Green
(Rat & Mouse 3/16" Small Bait Nuggets)

- Controls rats and mice in and around buildings
- Each box contains 8 premeasured mini-bait packs
- Ready-to-use packs that rodents gnaw open themselves

Item No. 116354 **Package Size** 8 x 43 g/pack box
 12 boxes per case

- Each pail contains 45 mini-bait packs
- Same convenient premeasured, ready-to-use mini-bait packs as in the pack box, but with the economy of more packs, sold by the pail.

Item No. 116316 **Package Size** 45 x 43 g/pack pail
 4 pails per case

Ramik® Green (Rat & Mouse ³/₁₆" Small Bait Nuggets)

Bulk packed 28.2 lb net wt. plastic tub

- 300 mini-bait packs per tub
- Large 300 count bulk packed plastic tub with E-Z open and close plastic lid:
 - Fits on the rear of a 4-wheeler
 - Handy for multiple, repeat baiting situations
 - Popular with large commercial operations such as nurseries, greenhouses, livestock and poultry operations

Item No.	Package Size
116319	300 x 43 g/pack tub

- Bulk packed 20 lb bucket
- Fish flavored, weather resistant
- For rats and mice

Item No.	Package Size
116300	20 lb bucket
116303	50 lb box

Ramik® Mouse Packs (³/₁₆" small sized bait nuggets)

- Fits on shelf with room for extra stock
- Combined with Ramik Rat Pack (item #116351) and Ramik Mouser (item #116327) these three Ramik packages only take up two feet of shelf space, leaving room for Ramik Bars (item #116364) and Ramik Mini Bars (item #116333) to be J-hooked on the remaining two feet of a four foot shelf
- Excellent for setting up a seasonal end-cap in retail farm stores

Item No.	Package Size
116304	60 x 1.5 oz display 2 displays per case

Ramik® Bar Baits

The proven and effective anticoagulant rodenticide diphacinone is used to manufacture Ramik Bar baits. These all-weather Bar Baits are manufactured utilizing a special proprietary extrusion process, where all the special bait ingredients are fully blended, bonded and then shaped into weather-proof bait bars. The small amount of edible wax added to the Bar Bait formulation allows these uniform sized bait bars to be formed with a hole in the center of each piece. This makes for easy bait placement, such as hanging or placing on wires, nails and pegs, or securing bait inside tamper resistant bait station boxes.

Two sizes of Ramik Bar baits are available: The large 12 ounce sized bar can be used whole or is scored to allow it to be easily broken into three 4 ounce pieces or further into 12 individual 1 ounce pieces. Each piece, when broken into smaller bars has a hole through the center to allow attachment of the bait bar pieces. Individual 1 ounce Mini Bars are also available. These Mini Bars are ready to use, and are perfect for making multiple bait placements by hanging on wire, pegging or securing in the bait station boxes. They are also just the right size for burrows or other small openings where rodents live and travel.

Ramik® Bars (12 oz Bars)

- 12 oz bar breaks easily into 1 oz or 4 oz pieces
- Each piece has its own hole to secure it in place
- Use it in the most demanding conditions for positive rodent control

Item No. **Package Size**
116364 18 x 12 oz display

Ramik® Mini Bars (Individual 1 oz Mini Bars)

1 oz Mini Bars are packaged in a variety of sizes to satisfy the needs of any user, occasional or large commercial operations.

- Ready-to-use all-weather Mini Bars
- Handy 8 pack size for quick use
- Fits inside bait stations
- Use indoors and outdoors

Item No. **Package Size**
116333 8 x 1 oz pack
24 packs per case

Ramik® Mini Bars (Individual 1 oz Mini Bars)

- Center hole in each Mini Bar for easy and secure bait placement
- Bulk pack 4 lb small plastic pail
- 64 Mini Bars per pail

Item No. **Package Size**
116332 64 x 1 oz pail
4 pails per case

- Bulk pack, Big Value bucket
- 400 Mini Bars per bucket
- Larger bulk size bucket for frequent users
- Weatherproof with lasting freshness and rodent appeal

Item No. **Package Size**
116325 400 x 1 oz bucket

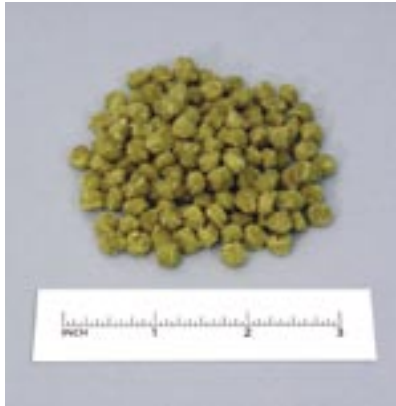

This larger, 640 count bulk packed plastic tub with E-Z open and close plastic lid:

- Fits on the rear of a 4-wheeler
- Handy for multiple, repeat baiting situations
- Popular with large commercial operations such as warehouses, feed and seed storage areas, greenhouses, livestock and poultry operations
- 640 Mini Bars per tub

Item No. **Package Size**
116326 640 x 1 oz tub

Ramik® Brown (³/₁₆" small sized bait nuggets)

- Effective against rats and mice
- 24c labels available in select states for use against orchard voles
- Apple flavored
- Weather resistant

Item No. **Package Size**
0033370 50 lb carton

Mechanical Bait Systems and Traps

Ramik® Mouser

Ramik Mouser is the most effective way to control mice in the house or inside buildings. Ramik Mouser is a self-contained, ready-to-use, disposable bait system that controls mice FAST!

- Easy to use; simply remove protective wrapper and put in place
- Fast action, kills mice up to twice as fast as plain bait
- Reduced user contact, better than handling traps
- Easy disposal; when job is done place in trash
- Economical, effective way to control mice indoors

Item No. **Package Size**
116327 44 x 2 oz display

Same great product, for displaying and dispensing individual boxes.

Rodent Fact:

Rats and mice are very prolific. About every four weeks, rats can produce 8-12 young and mice 4-6 per litter. Sexual maturity is reached 28 days after birth, and they will often reproduce while nursing their young.

One Bad Cat Glue Traps (Rat and Mouse)

- Premium glue
- Effective at temperature of -10°F to 130°F
- Individually packaged with J-hookable boxes containing 2 Glue Traps per box

Item No.	Package Size
1236090	Glue Trap for rats 2 pack 12 packs per case
1236170	Glue Trap for mice 2 pack 24 packs per case

Snap Traps

- Wooden board, heavy duty
- Expanded trigger

Item No.	Package Size
000401	Snap Trap for rats 1 pack 12 packs per case
000402	Snap Trap for mice 2 pack 24 packs per case

Havoc® Rodenticide Bait Products

Brodifacoum is the strongest anticoagulant rodenticide available. Havoc combines brodifacoum with a special mixture of highly attractive bait ingredients along with patented food processing techniques. The result is a superior, single-feed rodenticide with a bait delivery system that is unique.

Havoc is available in a choice of pellets or chunks. Pellets are packaged in full sized 50 gram (1.76 ounce) ready-to-use bait packs. Chunks are full sized 1 ounce extruded bait blocks. A multiple dimensional design includes a hole through the center of each chunk allowing for secure bait placement. Havoc comes in package sizes for every rodent control situation, from small consumer packs to large producer/commercial user containers.

Havoc® Pellets

- Bonus Pack Box – 20% more free!
12 packs for the price of 10
- Can kill rats and mice in a single night's feeding
- Controls Norway rats, roof rats and house mice
- For use in and around homes and agricultural buildings

Item No.	Package Size
116381	12 x 50 g/ pack box 24 boxes per case

- Plastic pails contain 80 count 50 gram bait packs
- Individual pails for use in livestock and poultry operations
- "Twin-pack" 2/50 gram bait packs may be sold individually

Item No.	Package Size
116372	40/2 x 50 g/pack pail 4 pails per case

Havoc® Pellets

- Can be set up as a P.O.P. dump display
- Contains 240 “twin-pack” selling units
- Big 20 gallon plastic container

Item No. 116374 **Package Size** 240/2 x 50 g/pack display

Havoc® Chunks

- Handy 8 pack consumer package (J-hook packaged)
- Can kill rats and mice in a single night’s feeding
- All-weather bait for the toughest rodent infestations
- Multi-dimensional design for maximum results

Item No. 116378 **Package Size** 8 x 1 oz pack
24 packs per case

- Bulk pack 3 lb small plastic pail, 48 chunks per pail
- Center hole in each chunk for easy and secure bait placement
- Ideal package size for farm use

Item No. 116376 **Package Size** 48 x 1 oz pail
4 pails per case

Havoc® Chunks

- Bulk pack 20 lb large plastic bucket
- 320 chunks per bucket
- Larger bulk size bucket for frequent users

Item No.	Package Size
116377	320 x 1 oz bucket

Rodent Fact:

A single rat can eat or contaminate up to 300 lbs of grain per year. Rats consume and contaminate grain and feed with their droppings and urine. They will even eat chicken eggs, baby chicks and piglets in confinement operations.

NEW

PROZAP® Rodenticide Products

Zinc phosphide, a powerful acute rodenticide, is contained in all PROZAP rodent bait formulations. The finished bait is formulated with a special blend of processed grains especially appealing to rodents. PROZAP Mole & Gopher Bait and PROZAP Rodent Pellets are both 1/8" mini-pellet, fast action rodenticide baits.

PROZAP® Mole & Gopher Pelleted Bait (1/8" sized bait pellets)

PROZAP Mole & Gopher Pelleted Bait comes with a measuring scoop in every jar, for easy application. Direct baiting to underground burrows, tunnels and mounds, provides fast acting, effective control within hours with only a single dose. Best results are obtained when bait is applied directly into underground runs where rodent activity is observed, in early spring after frost has gone, and in the fall before the first hard freeze.

- Kills moles and gophers right where they live
- Fast action, effective control
- Best results when applied in spring or fall

Item No. Package Size

*112845 1 lb jar
 12 jars per case

**NOT for sale in CA, HI, IN, NC, NH.*

PROZAP® Zinc Phosphide Rodent Pellets (1/8" sized bait pellets)

PROZAP Zinc Phosphide Rodent Pellets provide rapid and economical control of large infestations of mice or rats in and around livestock and poultry buildings. Gophers can be effectively controlled with direct burrow application.

- Kills rats, mice and gophers in and around buildings
- Fast action, works within hours
- So effective that one to three pellets is fatal to small rodents

Non-restrictive label

Item No. Package Size

114600 12 lb pail
 4 pails per case

PROZAP® Zinc Phosphide Pellets (1/8" sized bait pellets)

For spot treatments in and around buildings, orchards and groves, vineyards, rangeland and non-crop areas such as lawns, ornamentals, golf courses, parks and nurseries.

- Controls voles, rats and mice, prairie dogs, pocket gophers, kangaroo rats, and Columbian and Richardson's ground squirrels
- Field applications
- May also be used on:
No-till corn, cucurbits, Christmas tree nurseries, potato crops, and sugar beets

Restricted use pesticide label

Item No.	Package Size
0283390	50 lb bag 40 bags per pallet

PROZAP® Zinc Phosphide Oat Bait

- Field applications
- Hulled and toasted
- Highly palatable

Restricted use pesticide label

Item No.	Package Size
116882	10 lb pail 4 pails per case
0002980	50 lb bag 40 bags per pallet

Rodent Fact:

Rats and mice are known to carry and transmit over 35 diseases that are threats to humans and domestic livestock, such as *Bubonic Plague*, *Hantavirus*, *leptospirosis*, *Swine dysentery*, and *salmonellosis*.

RODEX™ Rodenticide Products

Micro-encapsulated warfarin, a hydroxycoumarin anticoagulant rodenticide, is contained in all RODEX bait formulations. In research trials, rat acceptance of micro-encapsulated warfarin baits was 3 to 10 times greater than uncoated warfarin baits. This anticoagulant is a multi-feed chronic rodenticide, and is considered the lowest hazard to non-target animals of any anticoagulant rodenticide. The advances in bait delivery system formulation and manufacturing processing have been applied to the RODEX bait products. Combining the improved micro-encapsulation treatment of the poison, along with the latest advances in bait delivery system technology, gives RODEX an advantage worth consideration. RODEX bait formulations are available in both pellets and blocks.

RODEX Pelleted Bait-1

- Kills rats and mice
- Micro-encapsulated, reduces bait shyness
- Big one pound bag, big value
- Economical and effective
- Low hazard to non-target animals
- 55 bags per box

Item No. 116077 **Package Size** 55 x 1 lb bags/box

RODEX Blox-1 All-Weather Bait Block

- Kills rats and mice
- New improved extruded block formulation
- One pound block breaks easily into smaller pieces
- Low hazard to non-target animals

Item No. 116079 **Package Size** 18 x 1 lb display

Mole-EX™ Gel Formula Poison Mole Bait

NEW

- Easy-to-use gel formula
- Warfarin-based anticoagulant
- Simulates a mole's natural food
- Tube contains six bait placements

Item No. 00450 **Package Size** 3 oz syringe
(6 per case)
