RESTRICTED USE PESTICIDE

DUE TO HAZARDS TO NON-TARGET SPECIES For retail sale to and use only by certified applicators or persons under their direct supervision and only those uses covered by the certified applicator's certification.

RAMIK® GREEN*

*Fish Flavored, Weather Resistant Rodenticide For use in tamper-resistant bait stations or other protected placements to control Norway and black rats for wildlife conservation purposes. FOR DISTRIBUTION AND USE ONLY IN ALASKA

ACTIVE INGREDIENT:
Diphacinone (2-Diphenylacetyl-1,3-Indandione) 0.005%
INERT INGREDIENTS: 99.995%
Total 100.000%
EPA Reg. No. 61282-46 EPA SLN No. AK-03-0001

FIRST AID	
If swallowed	Call a poison control center, doctor or 1-800-498-5743 immediately for treatment advice. • Have person sip glass of water if able to swallow • Do not induce vomiting unless told to do so by poison center or doctor.
If on skin	Take off contaminated clothing. • Rinse skin immediately with plenty of water for 15-20 minutes. • Call a poison control center, doctor or 1-800-498-5743 immediately for treatment advice.
If in eyes	Hold eye open and rinse slowly and gently for 15-20 minutes. • Remove contact lenses, if present, after the first 5 minutes then continue rinsing eye.

PRECAUTIONARY STATEMENTS

HAZARD TO HUMANS AND DOMESTIC ANIMALS

CAUTION: Keep away from humans, domestic animals and pets. If swallowed, this material may reduce the clotting ability of the blood and cause bleeding. Wear protective gloves when applying or loading bait. With a detergent and hot water, wash all implements used for applying bait. Do not use these implements for mixing, holding, or transferring food or feeds.

ENVIRONMENTAL HAZARDS

This product is toxic to mammals and birds. Do not apply this product directly to water, or to areas where surface water is present or to intertidal areas below the mean high water mark. Do not contaminate water by disposal of wastes.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

READ THIS LABEL: Read this entire label and follow all use directions and use precautions.

IMPORTANT: Apply this bait using procedures that will minimize if not prevent its exposure to children, pets, or other non-target animals.

1. Apply bait in tamper-resistant bait stations, other types of bait stations determined by the certified applicator to be appropriate for the specific use situations or directly to rat burrows if such placements can be made with minimal risk to non-target species. Secure or otherwise immobilize bait stations to keep them from being tipped or moved by animals or winds and to keep bait from spilling out of the units.
2. Store product not in use in a location out of reach of children and pets.

DIRECTIONS OF USE (cont.)

3. Dispose of product container, and unused, spoiled and unconsumed bait as specified on this label.

USE RESTRICTIONS: This product may only be used to control Norway rats (*Rattus norvegicus*) and black rats (*R.* rattus) on islands within the Alaska Maritime National Wildlife Refuge (AMNWR) for wildlife conservation purposes. Such proposes include the protection of State-or Federally-listed Threatened or Endangered Species or other species determined by the AMNWR to require special protection.

APPLICATION DIRECTIONS: Bait Stations: Apply 4 to 16 ounces per station. Within this range, adjust the amount of bait placed according to the level of rat activity detected at each placement location. Deploy bait stations in a grid over the area for which rat control is to be effected. Space stations at intervals of 5 to 50 meters, depending upon the density of rat sign and the manner in which rats appear to be using the habitat.

Burrow Treatments: Place bait in burrows only if this can be done in a way that minimizes potential for ejection of bait and exposure of bait to seed-eating birds and other non-target species. Place 3 to 4 ounces of bait in a resealable plastic bag. Place one such bag in each active burrow opening and push bag into burrow far enough so that its presence can barely be seen. Do not plug burrows. Flag treated burrows and reinspect them frequently, daily if possible. Remove bait from burrows if there is evidence that bags are ejected.

Follow Up: Monitor treated areas periodically (every 3-4 days or as often as practicable) and replenish bait as needed to ensure an uninterrupted supply of fresh bait for at least 10 days or until fresh signs of rat activity cease to appear in the treated area. Collect and dispose of any dead animals and spilled bait found. Dead animals and spilled bait may be buried on site if the depth of burial makes excavation by nontarget animals extremely unlikely.

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal.

STORAGE: Store only in original closed container in a cool, dry place inaccessible to children and pets. Store separately from fertilizer and away from products with strong odors, which may contaminate the bait and reduce acceptability. Spillage should be carefully swept up and collected for disposal. **PESTICIDE DISPOSAL:** Wastes resulting from the use of this product may be disposed of on site at a depth such that it will not result in exposure to non-target animals or at an approved waste disposal facility. **PLASTIC CONTAINER DISPOSAL:** Triple rinse (or equivalent), then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or, if allowed by state and local authorities, by burning. If burned, stay out of smoke.

NOTICE OF WARRANTY

It is impossible to eliminate all risks inherently associated with the use of this product. Crop injury, ineffectiveness, or other unintended consequences may result because of such factors as weather conditions, presence of other materials, or the manner of use or application, all of which are beyond the control of HACCO, the manufacturer or seller. In no case shall HACCO, the manufacturer or seller be liable for consequential, special or indirect damages resulting from the use or handling of this product. The buyer shall assume all such risks. Except as expressly provided herein, HACCO, the manufacturer or seller makes no warranties, guarantees, or representations of any kind, either express or implied, or by usage of trade, statutory or otherwise, with regard to the product sold, including, but not limited to, merchantability, fitness for a particular purpose, use or eligibility of the product for any particular trade usage. Buyers or user's exclusive remedy, and HACCO's, the manufacturers or sellers total liability, shall be for damages not exceeding the cost of the product.
